

# FRESH-AIRE UV<sup>®</sup>

## COMMERCIAL SERIES

### UV LIGHT DISINFECTION

#### Commercial Series Mounting with L- Bracket Magnet

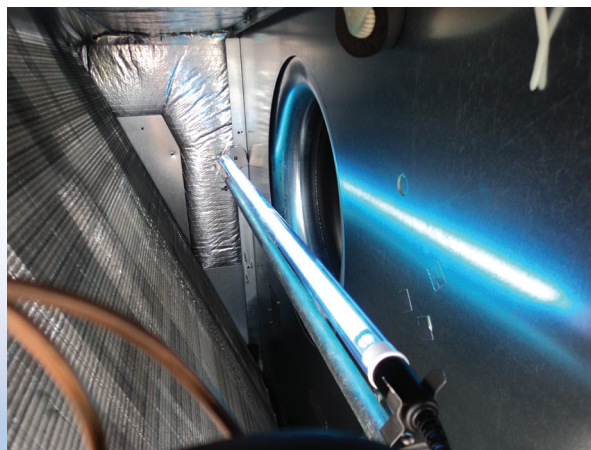

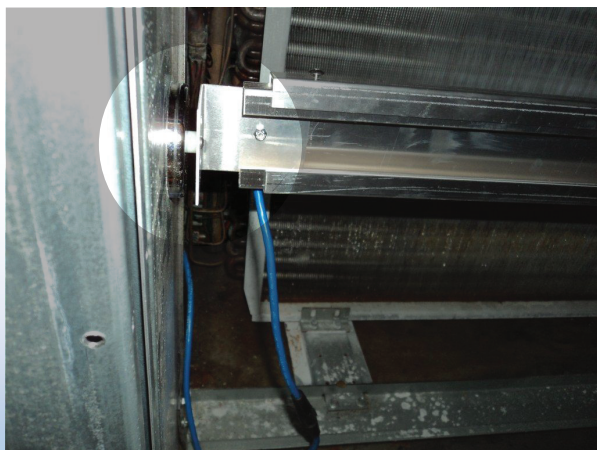

This is a solution for mounting Fresh-Aire UV lights in situations with limited space and/or tight access.. L-Bracket magnets are perfect for package units, large fan coils and air handlers. They can be used with any of the Commercial Series products including: Standard UV light kit, Tubular Rack System, Modular Rack System, and the Modular APCO System.

#### FEATURES

- 60lb magnet
- Aluminum Bracket length ( 2" x 2 ¾ " )
- Includes Mounting clip

#### BENEFITS

- Easy to use
- Saves time during installation
- Strong and able to hold in wet applications
- Works on all galvanized metal cabinets and framing
- Good for any size CFM system
- Cost effective

Manufactured by Triatomic Environmental, Inc.
